## Management's Responsibility

---

To the Members of Access Credit Union Limited:

Management is responsible for the preparation and presentation of the accompanying consolidated financial statements, including responsibility for significant accounting judgments and estimates in accordance with International Financial Reporting Standards and ensuring that all information in the annual report is consistent with the statements. This responsibility includes selecting appropriate accounting principles and methods, and making decisions affecting the measurement of transactions in which objective judgment is required.

In discharging its responsibilities for the integrity and fairness of the consolidated financial statements, management designs and maintains the necessary accounting systems and related internal controls to provide reasonable assurance that transactions are authorized, assets are safeguarded and financial records are properly maintained to provide reliable information for the preparation of consolidated financial statements.

The Board of Directors and Audit Committee are composed of Directors who are neither management nor employees of the Credit Union. The Board is responsible for overseeing management in the performance of its financial reporting responsibilities, and for approving the financial information included in the annual report. The Audit Committee has the responsibility of meeting with management, and external auditors to discuss the internal controls over the financial reporting process, auditing matters and financial reporting issues. The Committee is also responsible for recommending the appointment of the Credit Union's external auditors.

MNP LLP, an independent firm of Chartered Professional Accountants, is appointed by the members to audit the consolidated financial statements and report directly to them; their report follows. The external auditors have full and free access to, and meet periodically and separately with, both the Committee and management to discuss their audit findings.

## Independent Auditor's Report

---

To the Members of Access Credit Union Limited:

### Opinion

We have audited the consolidated financial statements of Access Credit Union Limited and its subsidiaries (the "Credit Union"), which comprise the consolidated statement of financial position as at December 31, 2021, and the consolidated statements of comprehensive income, changes in members' equity and cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Credit Union as at December 31, 2021, and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards.

### Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Credit Union in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Other Information

Management is responsible for the other information. The other information obtained at the date of this auditor's report is information included in the annual report, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

### Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with International Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Credit Union's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Credit Union or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Credit Union's financial reporting process.

## Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Credit Union's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Credit Union's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Credit Union to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Credit Union to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

The accompanying notes are an integral part of these financial statements

**1. Reporting entity**

Access Credit Union Limited was formed pursuant to the Credit Union and Caisses Populaires Act of Manitoba ("the Act") and operates multiple branches throughout Winnipeg and Southern Manitoba. The Credit Union's head office is located at Stanley Business Centre unit #2 - 23111 PTH #14, Winkler, Manitoba.

On January 1, 2021 Access Credit Union Limited merged with Crosstown Civic Credit Union Limited, following a favourable member vote and continues to operate as Access Credit Union Limited (the "Credit Union"). The merger was accounted for as a business combination as describe in Note 4.

The Credit Union operates as one segment principally in personal and commercial banking in Manitoba. Operating branches are similar in terms of products and services provided, methods used to distribute products and services, types of customers and the nature of the regulatory environment.

The Credit Union conducts its principal operations through its branches, offering products and services including consumer, commercial, and agricultural loans and mortgages, chequing and savings accounts, term deposits, registered deposits, automated banking machines ("ABMs"), debit cards and online banking.

***Statement of compliance***

The consolidated financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS) and interpretations adopted by the International Accounting Standards Board (IASB).

The Credit Union presents its consolidated statement of financial position on a non-classified basis in order of liquidity. The Credit Union classifies its expenses by the nature of expenses method.

These financial statements for the year ended December 31, 2021 were approved by the Board of Directors on February 17, 2022.

**2. Basis of preparation**

***Basis of consolidation***

The consolidated financial statements incorporate the financial statements of the Credit Union and its wholly owned subsidiaries 5033179 Manitoba Ltd. and 6009655 Manitoba Ltd.

Subsidiaries are entities controlled by the Credit Union. Control is achieved where the Credit Union is exposed, or has rights, to variable returns from its involvement with the investee and it has the ability to affect those returns through its power over the investee. In assessing control, only rights which give the Credit Union the current ability to direct the relevant activities and that the Credit Union has the practical ability to exercise, is considered.

The results of subsidiaries acquired or disposed of during the year are included in these consolidated financial statements from the effective date of acquisition or up to the effective date of disposal, as appropriate.

***Basis of measurement***

The consolidated financial statements have been prepared on the historic cost basis except for the revaluation of certain financial instruments designated as fair value through profit and loss and fair value through other comprehensive income.

**2. Basis of preparation** *(Continued from previous page)*

***Functional and presentation currency***

These consolidated financial statements are presented in Canadian dollars, which is the Credit Union's functional currency.

***Significant accounting judgments, estimates and assumptions***

The preparation of the Credit Union's financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities, at the reporting date. These estimates and assumptions have been made using careful judgment; however, uncertainties could result in outcomes that would require a material adjustment to the carrying amount of the asset or liability affected in the future.

The estimates and underlying assumptions are prepared based on management's best knowledge of current events and actions that the Credit Union may undertake in the future. These estimates and underlying assumptions are reviewed on an ongoing basis and revisions to accounting estimates are recognized prospectively in comprehensive income in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date are discussed below.

As the precise determination of many assets and liabilities is dependent upon future events, the preparation of financial statements for a period necessarily involves the use of estimates and approximations which have been made using careful judgment. These estimates are based on management's best knowledge of current events and actions that the Credit Union may undertake in the future. In the future, actual experience may differ from the estimates and assumptions.

The estimates and assumptions that have a significant risk of causing material adjustments to the carrying amounts of assets and liabilities within the next financial year are discussed below.

By their nature, these estimates are subject to measurement uncertainty, and the effect on the financial statements from changes in such estimates in future years could be material.

***Key assumptions in determining the allowance for expected credit losses***

At each reporting period, financial assets are assessed to determine whether their credit risk has increased significantly since initial recognition. In determining whether credit risk has significantly increased, management develops a number of assumptions about the following factors which impact the borrowers' ability to meet debt obligations:

- Expected significant increase in unemployment rates, interest rates, and relevant price indices
- Declining revenues, working capital deficiencies, increases in balance sheet leverage, and liquidity
- Expected or actual changes in internal credit ratings of the borrowers or external credit ratings of the instrument
- The correlation between credit risk on all lending facilities of the same borrower
- Changes in the value of the collateral supporting the obligation or in the quality of third-party guarantees or credit enhancements

Significant judgments, estimates and assumptions are required when calculating the expected credit losses of financial assets. In measuring the 12-month and lifetime expected credit losses, management makes assumptions about prepayments, the timing and extent of missed payments or default events. In addition, management makes assumptions and estimates about the impact that future events may have on the historical data used to measure expected credit losses.

In estimating expected credit losses, the Credit Union develops a number of assumptions as follows:

- The period over which the Credit Union is exposed to credit risk, considering for example, prepayments, extension options, demand features
- The probability-weighted outcome, including identification of scenarios that specify the amount and timing of the cash flows for particular outcomes and the estimated probability of those outcomes

**2. Basis of preparation** *(Continued from previous page)*

- The risk of default occurring on loans during their expected lives and during the next 12 months after the reporting date
- Expected cash short falls including, recoveries, costs to recover and the effects of any collateral or other credit enhancements
- Estimates of effective interest rates used in incorporating the time value of money

The above assumptions are based on historical information and adjusted for current conditions and forecasts of future economic conditions. The Credit Union determines adjustments needed to its historical assumptions by monitoring the correlation of the probability of default and loss rates with the following economic variables:

- Interest rates
- Unemployment rates
- Gross domestic product
- Inflation
- Loan to Value ratios
- Canadian Small Business Delinquency index
- Canadian Banker's Association report on residential delinquencies and credit card delinquencies

The estimate of expected credit losses reflects an unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes that are neither best-case nor worse-case scenarios. The Credit Union uses judgment to weight these scenarios.

***Classification of financial assets***

Classification of financial assets requires management to make judgments regarding the business model under which the Credit Union's financial assets are held and whether contractual cash flows consist solely of payments of principal and interest. Management has determined that the penalty to exercise prepayment features embedded in certain loans made to retail customers do not result in payments that are not solely payments of principal and interest because they represent reasonable additional compensation for early termination of the contract.

***Impairment of financial assets***

Significant judgments, estimates and assumptions are required when calculating the expected credit losses of financial assets and determining whether there has been a significant increase in credit risk since initial recognition in accordance with IFRS 9 Financial Instruments. For more information, refer to Note 6.

***Financial instruments not traded on active markets***

For financial instruments not traded in active markets, fair values are determined using valuation techniques such as the discounted cash flow model that rely on assumptions that are based on observable active markets or rates. Certain assumptions take into consideration liquidity risk, credit risk and volatility.

***Impairment of non-financial assets***

At each reporting date, the Credit Union assesses whether there are any indicators of impairment for non-financial assets. Non-financial assets that have an indefinite useful life or are not subject to amortization are tested annually for impairment or more frequently if impairment indicators exist. Other non-financial assets are tested for impairment if there are indicators that their carrying amounts may not be recoverable.

***Income taxes***

The Credit Union periodically assesses its liabilities and contingencies related to income taxes for all years open to audit based on the latest information available. For matters where it is probable that an adjustment will be made, the Credit Union records its best estimate of the tax liability including the related interest and penalties in the current tax provision. Management believes that they have adequately provided for the probable outcome of these matters; however, the final outcome may result in a materially different outcome than the amount included in the tax liabilities.

**2. Basis of preparation** *(Continued from previous page)*

***Hedge accounting***

In applying hedge accounting, the Credit Union uses the following key judgments:

- An economic relationship exists between the hedged item and the hedging instrument based on a hedge ratio
- Critical terms of the hedged item and hedging instrument match
- Effect of credit risk

**3. Summary of significant accounting policies**

The principal accounting policies adopted in the preparation of the consolidated financial statements are set out below. The policies have been consistently applied to all the years presented, unless otherwise stated.

***Funds on hand and on deposit***

Funds on hand and on deposit consists of cash on hand and demand deposits.

***Property, equipment and intangible assets***

All property, equipment and intangible assets are stated at cost less accumulated depreciation and impairment losses, with the exception of land which is not depreciated. Cost includes expenditures that are directly attributable to the acquisition of the asset. When parts of an item of property and equipment have different useful lives, they are accounted for as separate items of property, equipment and intangibles.

The methods of depreciation and useful life applicable for each class of asset during the current and comparative period are as follows:

	<b><i>Method</i></b>	<b><i>Rate</i></b>
Buildings	straight-line	10-40 years
Furniture and equipment	straight-line	5-10 years
Computer equipment	straight-line	4 years
ATM equipment	straight-line	7 years
Parking lots	straight-line	10 years
Leasehold improvements	straight-line	Lease term
Vehicles	straight-line	5-7 years
Right-of-use assets	straight-line	Lease term
Computer software	straight line	5-10 years
Customer list	straight-line	10 years

The residual value, useful life and depreciation method applied to each class of assets are reassessed at each reporting date.

The useful lives of items of property, equipment and intangible assets are reviewed periodically and the useful life is altered if estimates have changed significantly. Gains or losses on the disposal of property, equipment and intangible assets are determined as the difference between the net disposal proceeds and the carrying amount of the asset, and are recognized in income.

**3. Summary of significant accounting policies** *(Continued from previous page)*

***Investment property***

Investment property is investment interests in land and buildings held to earn rental income or for capital appreciation, or both. Investment property is comprised of land and office space leased out under operating lease agreements. Where distinguishing between investment property and owner-occupied property is difficult the following criteria are applied to classification:

- If the property is more than 80% held to earn rental income or capital appreciation, it is classified as investment property. The Credit Union determines the percentage of the portions using the size of the property measured in square metres.

Rental income and operating expenses from investment property are presented within other income and occupancy expenses respectively.

Investment property is stated at cost less accumulated depreciation and impairment losses. Cost includes expenditures that are directly attributable to the acquisition of the asset.

All investment property having a limited useful life is depreciated using the straight-line method over the estimated useful lives, estimated to be 40 years. Land has an unlimited useful life and is therefore not depreciated. Investment property is depreciated from the date of acquisition.

The residual value, useful life and depreciation method applied to each class of asset are reviewed at least annually.

***Securitized borrowings***

The Credit Union has entered into asset transfer agreements with other third parties which include the securitization of residential mortgages. These transfers do not qualify for derecognition principally because the Credit Union retains significant exposure to prepayment and other risks associated with the transferred mortgages. As such, these transactions are accounted for as financing activities and result in the recognition of a securitization liability at an amount equivalent to the securitization proceeds, inclusive of any premiums or discounts and net of eligible transaction costs. The securitization liabilities are subsequently measured at amortized cost using the effective interest rate method.

***Leases***

The Credit Union assesses at inception of a contract, whether the contract is, or contains a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset for a period of time, the Credit Union assesses whether the customer has the following through the period of use:

- The right to obtain substantially all of the economic benefits from use of the identified asset; and
- The right to direct the use of the identified asset.

This policy is applied to contracts entered into, or changed, on or after January 1, 2019.

Where the Credit Union is a lessee in a contract that contains a lease component, the Credit Union allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components.

At the lease commencement date, the Credit Union recognizes a right-of-use asset and a lease liability. The right-of-use asset is initially measured at cost. The cost of the right-of-use asset is comprised of the initial amount of the lease liability, any lease payments made at or before the commencement date less any lease incentives received, initial direct costs incurred by the Credit Union, and an estimate of the costs to be incurred by the Credit Union in dismantling and removing the underlying asset and restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease.

**3. Summary of significant accounting policies** *(Continued from previous page)*

After the commencement date, the Credit Union measures right-of-use assets by applying the cost model, whereby the right-of-use asset is measured at cost less accumulated depreciation and impairment losses and adjusted for any remeasurement of the lease liability. The right-of-use asset is depreciated using the straight-line method from the commencement date to the end of the lease term or the end of the useful life of the right-of-use asset. The estimated useful life of the right-of-use assets are determined on the same basis as those of property and equipment. The determination of the depreciation period is dependent on whether the Credit Union expects that the ownership of the underlying asset will transfer to the Credit Union by the end of the lease term or if the cost of the right-of-use asset reflects that the Credit Union will exercise a purchase option.

The lease liability is initially measured at the present value of the lease payments not paid at the lease commencement date, discounted using the interest rate implicit in the lease or the Credit Union's incremental borrowing rate, if the interest rate implicit in the lease cannot be readily determined. The lease payments included in the measurement of the lease liability comprise of fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or rate, amounts expected to be payable by the Credit Union under a residual value guarantee, the exercise price of a purchase option that the Credit Union is reasonably certain to exercise, and payment of penalties for terminating the lease if the lease term reflects the Credit Union exercising an option to terminate the lease. After the commencement date, the Credit Union measures the lease liability at amortized cost using the effective interest rate method.

The Credit Union remeasures the lease liability when there is a change in the lease term, a change in the Credit Union's assessment of an option to purchase the underlying asset, a change in the Credit Union's estimate of amounts expected to be payable under a residual value guarantee, or a change in future lease payments resulting from a change in an index or a rate used to determine those payments. On remeasurement of the lease liability, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in income if the carrying amount of the right-of-use asset has been reduced to zero.

***Impairment of non-financial assets***

At the end of each reporting period, the Credit Union reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Where it is not possible to estimate the recoverable amount of an individual asset, the Credit Union estimates the recoverable amount of the cash-generating units ("CGU") to which the asset belongs. Where a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual CGU's, or otherwise they are allocated to the smallest group of CGU's for which a reasonable and consistent allocation basis can be identified. Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment at least annually, and whenever there is an indication that the asset may be impaired.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value.

If the recoverable amount of an asset or CGU is estimated to be less than its carrying amount, the carrying amount of the asset or CGU is reduced to its recoverable amount. An impairment loss is recognized immediately in income.

Where an impairment loss subsequently reverses, the carrying amount of the asset or CGU is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognized for the asset or CGU in prior years. A reversal of an impairment loss is recognized immediately in income.

***Investments in associates***

An associate is an entity over which the Credit Union has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies. The Credit Union accounts for all of its investments in associates using the equity method. The fiscal year-end of all associates is September 30.

3. **Summary of significant accounting policies** *(Continued from previous page)*

***Members' savings and deposits***

Members' savings and deposits are initially recognized at fair value, net of transaction costs directly attributable to the issuance of the instrument, and are subsequently measured at amortized cost using the effective interest rate method.

***Members' shares***

Shares are classified as liabilities or member equity in accordance with their terms. Shares redeemable at the option of the member, either on demand or on withdrawal from membership, are classified as liabilities. Shares redeemable at the discretion of the Credit Union board of directors are classified as equity. Shares redeemable subject to regulatory restrictions are accounted for using the criteria set out in IFRIC 2 *Members' Shares in Cooperative Entities and Similar Instruments*.

***Patronage refund***

Patronage refund that allocate profit or loss to the members on the basis of services rendered or business generated are accounted for as transactions with members in their role as non-owners and are, accordingly, expensed in the statement of comprehensive income.

***Revenue recognition***

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Credit Union and the revenue can be reliably measured.

Interest income is recognized in income for all financial assets measured at amortized cost using the effective interest rate method. The effective interest rate is the rate that discounts estimated future cash flows through the expected life of the financial instrument back to the net carrying amount of the financial asset. The application of the method has the effect of recognizing revenue of the financial instrument evenly in proportion to the amount outstanding over the period to maturity or repayment.

Interest penalties received as a result of loan prepayments by members are recognized as income in the year in which the prepayment is made, unless only minor modifications (based on a present value of future cash flows test) were made to the loan in which case they are deferred and amortized using the effective interest rate method.

Fees related to the origination or renewal of a loan are considered an integral part of the yield earned on a loan and are recognized using the effective interest rate method over the estimated repayment term of the related loan.

Investment income is recognized as interest is earned on interest-bearing investments, and when dividends are declared on shares.

Commission revenue is recognized net of broker commission expense as earned on the effective date of each policy.

Other revenue is recognized as services are provided to members.

***Government assistance***

Claims for assistance under various government grant programs are netted against the related expenses in the period in which eligible expenditures are incurred.

**3. Summary of significant accounting policies** *(Continued from previous page)*

***Income taxes***

Current tax and deferred tax are recognized in income except to the extent that the tax is recognized either in other comprehensive income or directly in equity, or the tax arises from a business combination.

Current tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities. The calculation of current tax is based on the tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the assets are realized or the liabilities are settled. The calculation of deferred tax is based on the tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting year. Deferred tax assets are recognized to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilized.

Deferred tax assets and liabilities are recognized where the carrying amount of an asset or liability differs from its tax base, except for taxable temporary differences arising on the initial recognition of goodwill and temporary differences arising on the initial recognition of an asset or liability in a transaction which is not a business combination and at the time of the transaction affects neither accounting or taxable income.

Recognition of deferred tax assets for unused tax losses, tax credits and deductible temporary differences is restricted to those instances where it is probable that future taxable profit will be available which allow the deferred tax asset to be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

***Foreign currency translation***

Transactions denominated in foreign currencies are translated into the functional currency of the Credit Union at exchange rates prevailing at the transaction dates (spot exchange rates). Monetary assets and liabilities are retranslated at the exchange rates at the consolidated statement of financial position date. Exchange gains and losses on translation or settlement are recognized in income for the current period.

Non-monetary items that are measured at historical cost are translated using the exchange rates at the date of the initial transaction and are not subsequently restated.

***Financial instruments***

***Financial assets***

**Recognition and initial measurement**

The Credit Union recognizes financial assets when it becomes party to the contractual provisions of the instrument. Financial assets are measured initially at their fair value plus, in the case of financial assets not subsequently measured at fair value through profit or loss, transaction costs that are directly attributable to their acquisition. Transaction costs attributable to the acquisition of financial assets subsequently measured at fair value through profit or loss are expensed in income when incurred.

**Classification and subsequent measurement**

On initial recognition, financial assets are classified as subsequently measured at amortized cost, fair value through other comprehensive income (FVOCI) or fair value through profit or loss (FVTPL). The Credit Union determines the classification of its financial assets, together with any embedded derivatives, based on the business model for managing the financial assets and their contractual cash flow characteristics.

**3. Summary of significant accounting policies** *(Continued from previous page)*

Financial instruments are classified as follows:

- Amortized cost - Assets that are held for collection of contractual cash flows where those cash flows are solely payments of principal and interest are measured at amortized cost. Interest revenue is calculated using the effective interest rate method and gains or losses arising from impairment, foreign exchange and derecognition are recognized in income. Financial assets measured at amortized cost are comprised of funds on hand and on deposits, members' loans and debentures included in investments.
- Fair value through other comprehensive income - Assets that are held for collection of contractual cash flows and for selling the financial assets, and for which the contractual cash flows are solely payments of principal and interest, are measured at fair value through other comprehensive income. Interest income calculated using the effective interest rate method and gains or losses arising from impairment and foreign exchange are recognized in income. All other changes in the carrying amount of the financial assets are recognized in other comprehensive income. Upon derecognition, the cumulative gain or loss previously recognized in other comprehensive income is reclassified to income. The Credit Union does not hold any financial instruments designated to be measured at fair value through other comprehensive income.
- Mandatorily at fair value through profit or loss - Assets that do not meet the criteria to be measured at amortized cost, or fair value through other comprehensive income, are measured at fair value through income. All interest income and changes in the financial assets' carrying amount are recognized in income. Financial assets mandatorily measured at fair value through profit or loss are comprised of term deposits and shares in Credit Union Central Manitoba included in investments.
- Designated at fair value through profit or loss – On initial recognition, the Credit Union may irrevocably designate a financial asset to be measured at fair value through profit or loss in order to eliminate or significantly reduce an accounting mismatch that would otherwise arise from measuring assets or liabilities, or recognizing the gains and losses on them, on different bases. All interest income and changes in the financial assets' carrying amount are recognized in income. The Credit Union does not hold any financial assets designated to be measured at fair value through profit or loss.

The Credit Union measures all equity investments at fair value. Changes in fair value are recorded in income.

*Business model assessment*

The Credit Union assesses the objective of its business model for holding a financial asset at a level of aggregation which best reflects the way the business is managed and information is provided to management. Information considered in this assessment includes stated policies and objectives, how performance of the portfolio is evaluated, risks affecting the performance of the business model, how managers of the business are compensated, the significance and frequency of sales in prior periods.

*Contractual cash flow assessment*

The cash flows of financial assets are assessed as to whether they are solely payments of principal and interest on the basis of their contractual terms. For this purpose, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money, the credit risk associated with the principal amount outstanding, and other basic lending risks and costs. In performing this assessment, the Credit Union considers factors that would alter the timing and amount of cash flows such as prepayment and extension features, terms that might limit the Credit Union's claim to cash flows, and any features that modify consideration for the time value of money.

**Reclassifications**

The Credit Union reclassifies debt instruments only when its business model for managing those financial assets has changed. Reclassifications are applied prospectively from the reclassification date and any previously recognized gains, losses or interest are not restated.

**3. Summary of significant accounting policies** *(Continued from previous page)*

**Impairment**

The Credit Union recognizes a loss allowance for the expected credit losses associated with its financial assets, other than debt instruments measured at fair value through profit or loss and equity investments. Expected credit losses are measured to reflect a probability-weighted amount, the time value of money, and reasonable and supportable information regarding past events, current conditions and forecasts of future economic conditions.

For members' loans, the Credit Union records a loss allowance equal to the expected credit losses resulting from default events that are possible within the next 12-month period, unless there has been a significant increase in credit risk since initial recognition. For those financial assets for which the Credit Union assessed that a significant increase in credit risk has occurred, the Credit Union records a loss allowance equal to the expected credit losses resulting from all possible default events over the assets' contractual lifetime.

The Credit Union assesses whether a financial asset is credit-impaired at the reporting date. Regular indicators that a financial instrument is credit-impaired include significant financial difficulties as evidenced through borrowing patterns or observed balances in other accounts, breaches of borrowing contracts such as default events or breaches of borrowing covenants, requests to restructure loan payment schedules.

For financial assets assessed as credit impaired at the reporting date, the Credit Union continues to recognize a loss allowance equal to lifetime expected credit losses.

Loss allowance for expected credit losses are presented in the statement of financial position as a deduction from the gross carrying amount of the financial assets.

Financial assets are written off when the Credit Union has no reasonable expectations of recovering all or any portion thereof.

Refer to Note 21 for additional information about the Credit Union's credit risk management process, credit risk exposure and the amounts arising from expected credit losses.

**Derecognition of financial assets**

The Credit Union applies its accounting policies for the derecognition of a financial asset to a part of a financial asset only when:

- The part comprises only specifically identified cash flows from a financial asset;
- The part comprises only a pro-rata share of the cash flows from a financial asset; or
- The part comprises only a pro-rata share of specifically identified cash flows from a financial asset.

In all other situations the Credit Union applies its accounting policies for the derecognition of a financial asset to the entirety of a financial asset.

The Credit Union derecognizes a financial asset when its contractual rights to the cash flows from the financial asset expire, or the financial asset has been transferred under particular circumstances.

For this purpose, a financial asset is transferred if the Credit Union either:

- Transfers the right to receive the contractual cash flows of the financial asset, or;
- Retains the right to receive the contractual cash flows of the financial asset, but assumes an obligation to pay received cash flows in full to one or more third parties without material delay and is prohibited from further selling or transferring the financial asset.

Transferred financial assets are evaluated to determine the extent to which the Credit Union retains the risks and rewards of ownership. When the Credit Union neither transfers nor retains substantially all the risks and rewards of ownership of the financial asset, it evaluates whether it has retained control of the financial asset.

**3. Summary of significant accounting policies** *(Continued from previous page)*

Where substantially all risks and rewards of ownership have been transferred, or risks and rewards have neither been transferred nor retained and control of the financial asset has not been retained, the Credit Union derecognizes the financial asset. At the same time, the Credit Union separately recognizes as assets or liabilities the fair value of any rights and obligations created or retained in the transfer. Any difference between the carrying amount measured at the date of recognition and the consideration received is recognized in income.

Where a derecognized financial asset is a part of a larger financial asset, the previous carrying amount of the larger financial asset is allocated between the part that continues to be recognized and the part that is derecognized on the basis of their relative fair values.

**Modification of financial assets**

The Credit Union assesses the modification of terms of a financial asset to evaluate whether its contractual rights to the cash flows from that asset have expired in accordance with the Credit Union's policies.

When the modifications do not result in derecognition of the financial asset, the gross carrying amount of the financial asset is recalculated with any difference between the previous carrying amount and the new carrying amount recognized in income. The new gross carrying amount is recalculated as the present value of the modified contractual cash flows discounted at the asset's original effective interest rate.

For the purpose of applying the impairment requirements, at each reporting date subsequent to the modification, the Credit Union continues to assess whether there has been a significant increase in credit risk on the modified financial assets from the date of initial recognition.

**Financial liabilities**

**Recognition and initial measurement**

The Credit Union recognizes a financial liability when it becomes party to the contractual provisions of the instrument. At initial recognition, the Credit Union measures financial liabilities at their fair value plus transaction costs that are directly attributable to their issuance, with the exception of financial liabilities subsequently measured at fair value through profit or loss for which transaction costs are immediately recorded in income.

**Classification and subsequent measurement**

Subsequent to initial recognition, financial liabilities are measured at amortized cost using the effective interest rate method. Financial liabilities measured at amortized cost include members' savings and deposits, securitized borrowings and other liabilities.

Financial liabilities are not reclassified subsequent to initial recognition.

**Derecognition of financial liabilities**

The Credit Union derecognizes a financial liability only when its contractual obligations are discharged, cancelled or expire.

**Interest**

Interest income and expense are recognized in income using the effective interest rate method.

The "effective interest rate" is the rate that exactly discounts estimated future cash payments over the expected life of the financial instrument to the gross carrying amount of the financial asset or the amortized cost of the financial liability. The effective interest rate is calculated considering all contractual terms of the financial instruments, except for the expected credit losses of financial assets.

The "amortized cost" of a financial asset or financial liability is the amount at which the instrument is measured on initial recognition minus principal repayments, plus or minus any cumulative amortization using the effective rate interest method of any difference between the initial amount and maturity amount and adjusted for any expected credit loss allowance. The 'gross carrying amount' of a financial asset or liability is the amortized cost of a financial asset or liability before adjusting for any expected credit losses.

**3. Summary of significant accounting policies** *(Continued from previous page)*

Interest income and expense is calculated by applying the effective interest rate to the gross carrying amount of the financial asset (when the asset is not credit-impaired) or the amortized cost of the financial liability.

Where a financial asset has become credit-impaired subsequent to initial recognition, interest income is calculated in subsequent periods by applying the effective interest rate method to the amortized cost of the financial asset. If the asset subsequently ceases to be credit-impaired, calculation of interest income reverts to the gross basis.

***Business combinations***

Acquisitions are accounted for using the acquisition method.

The consideration for each acquisition is measured at the aggregated fair values, at the date of exchange, of assets transferred, liabilities assumed, and equity instruments issued by the Credit Union in exchange for control of the acquiree. Acquisition-related costs are recognized in income as incurred.

Where appropriate, the cost of acquisition includes any asset or liability resulting from a contingent consideration arrangement, measured at its acquisition-date fair value (the date in which the Credit Union acquired control of the acquiree). Subsequent changes in such fair values are adjusted against the cost of acquisition where they qualify as measurement period adjustments. All other subsequent changes in the fair value of contingent consideration classified as an asset or liability are recognized in profit or loss. Changes in the fair value of contingent consideration classified as equity are not recognized.

The Credit Union recognizes any non-controlling interests in its subsidiaries either at fair value or at the non-controlling interest's proportionate share of the subsidiaries assets.

The acquired identifiable assets, and liabilities are recognized at their acquisition date fair values if they meet the definitions of assets and liabilities in the Framework for the preparation and presentation of financial statements at acquisition date and they were exchanged as part of the business combination rather than as the result of separate transactions.

The following are exceptions to this recognition and measurement principle:

- Deferred tax assets or liabilities are recognized and measured in accordance with IAS 12 *Income taxes*;
- Liabilities or assets related to the acquiree's employee benefit arrangements are recognized and measured in accordance with IAS 19 *Employee benefits*;
- Asset and disposal groups that are classified as held for sale in accordance with IFRS 5 *Non-current Assets Held for Sale and Discontinued Operations* are measured at fair value less costs to sell;
- Contingent liabilities are recognized at the acquisition date even if it is not probable that an outflow of economic benefits will be required to settle the obligation;
- Indemnification assets are recognized at the same time and measured at the same basis as the indemnified item, subject to a valuation allowance for uncollectable amounts. This may lead to exceptions if the indemnified item is itself an exception; and
- The value of a reacquired right is measured as an intangible asset on the basis of the remaining contractual term regardless of whether market participants would consider potential contractual renewals in determining its fair value.

**3. Summary of significant accounting policies** *(Continued from previous page)*

***Derivatives and hedge accounting***

Derivatives are initially recognized at fair value on the date the Credit Union becomes party to the provisions of the contract, and are subsequently remeasured at fair value at the end of each reporting period. Changes in the fair value of derivatives not designated as a hedging instrument are recognized in income.

The Credit Union designates certain derivative financial instruments as the hedging instrument in qualifying hedging relationships in order to better reflect the effect of its risk management activities in the consolidated financial statements.

Qualifying hedging relationships are those where there is an economic relationship between the hedged item and the hedging instrument, the effect of credit risk does not dominate the value changes that result from that economic relationship, and the hedge ratio of the hedging relationship is the same as that resulting from the actual quantities of the hedging instrument and the hedged item that the Credit Union uses for hedging purposes.

At inception of the hedging relationship, the Credit Union documents the economic relationship between the hedging instrument and the hedged item, along with its risk management objective and strategy.

***Fair value hedges***

The Credit Union uses fair value hedges to hedge its exposure to changes in the fair value of members' loans.

Changes in the fair value of the hedging instrument are recognized immediately in income together with changes in the fair value of the hedged item that are attributable to the risks being hedged.

Where the Credit Union has designated a group of assets and/or liabilities in a fair value hedge, gains and losses are presented in the consolidated statement of financial position as an adjustment to the carrying amount of the respective individual items comprising the group.

***Rebalancing and discontinuation of hedging relationships***

If the hedge ratio for risk management purposes is no longer optimal but the risk management objective remains unchanged and the hedging relationship continues to qualify for hedge accounting, the hedging ratio is rebalanced by adjusting either the volume of the hedging instrument or the volume of the hedged item to realign the hedge ratio with the ratio used for risk management purposes. Hedge ineffectiveness is recognized in income at the time of rebalancing.

Hedge accounting is discontinued prospectively when the hedging relationship ceases to meet the qualifying criteria, including instances where the hedging instrument expires or is sold, terminated or exercised.

As at December 31, 2021 the Credit Union had interest rate swaps with a notional principle balance of \$192,500,000 which had a related liability of \$2,028,497.

***Standards issued but not yet effective***

The Credit Union has not yet applied the following new standards, interpretations and amendments to standards that have been issued as at December 31, 2021 but are not yet effective. Unless otherwise stated, the Credit Union does not plan to early adopt any of these new or amended standards and interpretations.

***IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors***

Amendments to IAS 8, issued in February 2021, introduce a new definition of "accounting estimates" to replace the definition of "change in accounting estimates" and also include clarification intended to help entities distinguish changes in accounting policies from changes in accounting estimates.

The amendments are effective for annual periods beginning on or after January 1, 2023. The Credit Union is currently assessing the impact of these amendments on its financial statements.

**Access Credit Union Limited**  
**Notes to the Consolidated Financial Statements**  
*For the year ended December 31, 2021*

**4. Business combination**

Business acquisitions are accounted for using the acquisition method. The results of the acquired business are included in the consolidated financial statements as from the date of acquisition.

Effective January 1, 2021 Access Credit Union Limited ("Access") merged with Crosstown Civic Credit Union Limited ("Crosstown"). Access was identified as the acquirer and Crosstown the acquiree.

Crosstown conducts its principal operations through its branches, offering products and services including deposit business, individual lending and commercial lending. The deposit business provides a wide range of deposit and investment products and sundry financial services to all members. The lending business provides a variety of credit products and services designed specifically for each particular group of borrowers.

There was no consideration transferred, and there was no goodwill recognized.

The acquisition had the following effect on the Credit Union's assets and liabilities on acquisition date:

	<b>Pre-acquisition carrying amount</b>	<b>Fair-value adjustment</b>	<b>Fair value at the acquisition date</b>
<b>Acquired assets and assumed liabilities</b>			
Funds on hand and on deposit	448,856,424	-	448,856,424
Investments	197,979,238	-	197,979,238
Members' loans	2,014,661,426	33,029,800	2,047,691,226
Other assets	4,695,895	2,124,964	6,820,859
Property and equipment	14,025,791	2,339,000	16,364,791
Intangible assets	1,313,867	-	1,313,867
Deferred tax asset (liability)	475,000	(5,558,000)	(5,083,000)
Members' savings and deposits	(2,489,508,464)	(14,529,170)	(2,504,037,634)
Other liabilities	(10,670,375)	-	(10,670,375)
Income taxes payable	(423,037)	-	(423,037)
Lease liability	(826,220)	-	(826,220)
<b>Net identifiable asset and liabilities</b>	<b>180,579,545</b>	<b>17,406,594</b>	<b>197,986,139</b>
Purchase price - equity interest issued to members			(20,083,626)
<b>Contributed surplus</b>			<b>177,902,513</b>

Term and contract deposits bear interest between 0.09% and 0.27% (2020 - 0.15% to 0.26%). The term deposit maturities range from January 2022 to April 2022 (2020 - January 2021 to April 2021).

The shares in Credit Union Central of Manitoba ("CUCM") are required as a condition of membership and are redeemable upon withdrawal of membership or at the discretion of the Board of Directors of Credit Union Central of Manitoba. In addition, the member credit unions are subject to additional capital calls at the discretion of the Board of Directors of CUCM. Class 1 and 2 CUCM shares are subject to a rebalancing mechanism at least annually and are issued and redeemable at par value. There is no separately quoted market value for these shares. However, fair value is determined to be equivalent to the par value due to the fact that transactions occur at par value on a regular and recurring basis.

The Municipal debentures bear interest at rates ranging from 4.90% to 6.88% (2020 - 4.90% to 6.88%) and mature between December 2022 and December 2024 (2020 - December 2022 and December 2024).

Pursuant to Regulations, Credit Union Central of Manitoba requires that the Credit Union maintain 8% of its total liabilities in specified liquidity deposits. The provincial regulator for Credit Unions, Deposit Guarantee Corporation of Manitoba, requires that the Credit Union adhere to these prescribed limits and restrictions. As of December 31, 2021 the Credit Union has a liquidity ratio of 17.41% (2020 - 19.21%) and therefore has met the liquidity requirement.

**Access Credit Union Limited**  
**Notes to the Consolidated Financial Statements**  
*For the year ended December 31, 2021*

**6. Members' loans**

Members' loans can have either a variable or fixed rate of interest maturing at varying term lengths.

Variable rate loans are based on a "prime rate" formula, and as at December 31, 2021 the weighted average rate was 3.15% (2020 - 3.11%). The rate is determined by the type of security offered and the member's credit worthiness. The Credit Union's prime rate at December 31, 2021 was 2.45% (2020 - 2.45%).

The weighted average interest rates on fixed rate loans outstanding as at December 31, 2021 was 2.76% (2020 - 3.22%). The rate offered to a member varies with the type of security offered and the member's credit worthiness.

Commercial loans consist of term loans, operating lines of credit and mortgages to individuals, partnerships and corporations, and have various repayment terms. They are secured by various types of collateral, including mortgages on real property, general security agreements, charges on specific equipment, investments, and personal guarantees.

Personal loans consist of term loans and lines of credit that are non real estate secured and, as such, have various repayment terms. Some of the personal loans are secured by personal property or investments.

Residential mortgages are secured by residential property and are generally repayable monthly with either blended payments of principal and interest or interest only.

Principal and allowance by loan type:

**6. Members' loans** (Continued from previous page)

	2020				
	Principal performing	Principal impaired	Allowance specific	Allowance collective	Net carrying value
Commercial loans	1,288,179,212	637,937	97,099	2,823,862	1,285,896,188
Personal loans	76,411,015	78,226	40,443	824,798	75,624,000
Residential mortgages	1,210,849,315	1,285,860	61,439	1,906,109	1,210,167,627
	2,575,439,542	2,002,023	198,981	5,554,769	2,571,687,815

The allowance for loan impairment changed as follows:

	2021	2020
Balance, beginning of year	<b>5,753,750</b>	4,036,526
Provision for (recovery of) impaired loans	<b>(1,659,541)</b>	2,974,321
Addition through business combination	<b>3,645,268</b>	-
	<b>7,739,477</b>	7,010,847
Less: accounts written off, net of recoveries	<b>320,205</b>	1,257,097
Balance, end of year	<b>7,419,272</b>	5,753,750

A loan is considered past due when a counterparty has not made a payment by the contractual due date. The table that follows presents the carrying value of loans at year-end that are past due but not classified as impaired because they are less than 90 days past due and fully secured and collection efforts are reasonably expected to result in repayment.

				2021	2020
	1-30 days	31-60 days	61 days and greater		
Commercial loans	19,194,294	1,619,717	150,423	<b>20,964,434</b>	3,663,352
Personal loans	948,063	48,487	16,435	<b>1,012,985</b>	444,036
Residential mortgages	22,428,552	1,327,987	382,672	<b>24,139,211</b>	6,681,924
	42,570,909	2,996,191	549,530	<b>46,116,630</b>	10,789,312

The principal collateral and other credit enhancements the Credit Union holds as security for loans include (i) insurance, mortgages over residential lots and properties, (ii) recourse to business assets such as real estate, equipment, inventory and accounts receivable, (iii) recourse to commercial real estate properties being financed, and (iv) recourse to liquid assets, guarantees and securities. Valuations of collateral are updated periodically depending on the nature of the collateral. The Credit Union has policies in place to monitor the existence of undesirable concentration in the collateral supporting its credit exposure. In management's estimation, the fair value of the collateral is sufficient to offset the risk of loss on the loans past due but not impaired.

	<b>2021</b>	2020
Balance, beginning of year	<b>2,857,134,008</b>	2,574,682,193
Net cash increase in members' savings and deposits	<b>184,276,855</b>	280,991,606
Acquired in business combination (Note 4)	<b>2,504,037,634</b>	-
Non-cash change in accrued interest	<b>5,912,459</b>	1,460,209
<b>Balance, end of year</b>	<b>5,551,360,956</b>	2,857,134,008

Total deposits include \$50,694,555 (2020 - \$36,375,820) denominated in United States dollars. Member deposits are subject to the following terms:

- Chequing and savings products are due on demand and bear interest at a weighted average rate of 0.72% (2020 - 0.83%).
- Term deposits are subject to fixed and variable rates at a weighted average rate of 2.16% (2020 - 2.37%), with interest payments due monthly, annually or on maturity.
- Registered savings plans are subject to fixed and variable rates at a weighted average rate of 1.80% (2020 - 2.24%), with interest payments due monthly, annually or on maturity.

Members' savings and deposits are primarily located in and around Winnipeg and Southern Manitoba.

**12. Securitized borrowing**

The Credit Union periodically may securitize mortgages through the transfer of mortgage loans to third parties, and is an approved issuer in the National Housing Act Mortgage-backed Securities Program (NHA MBS). As at December 31, 2021, the aggregate value of securitized mortgages outstanding amounted to \$196,244,579 (2020 - \$124,026,254). There were no credit losses incurred on the mortgages transferred in 2021. The Credit Union retains the responsibility for servicing the qualifying residential mortgage receivables. Under the program, the Credit Union has an obligation to forward principal and interest amounts from the original loan to Canada Mortgage and Housing Corporation monthly whether or not it receives payments from mortgagors. The Credit Union has retained substantially all of the risks and rewards associated with the transferred assets. These assets are recognized within members' loans and the transfers are accounted for as secured financing transactions. The associated liability, secured by these loans, is carried at amortized cost and included in securitized borrowings on the consolidated statement of financial position.

NHA MBS mortgage pools consists of twenty-one mortgage pools bearing interest rates from 0.76% to 2.90% (2020 - 0.76% to 2.90%). Mortgage pool maturities range from May 2022 to December 2031.

**13. Loan payable**

The Credit Union has an approved borrowing limit of 10% of members' savings and deposits. Borrowings are payable to Credit Union Central of Manitoba at an interest rate of 2% above the variable current account rate and are secured by all assets with no fixed terms of repayment. At December 31, 2021 the balance was \$nil (2020 - \$nil).

**Access Credit Union Limited**  
**Notes to the Consolidated Financial Statements**  
*For the year ended December 31, 2021*

**14. Members' shares**

Authorized:

Unlimited number of Common shares, at an issue price of \$5  
 Unlimited number of Surplus shares, at an issue price of \$1

Issued:

	2021	2020
<b>Share capital</b>		
89,729 Common shares (2020 - 53,139)	<b>448,645</b>	265,695
14,197,575 Surplus shares (2020 - nil)	<b>14,197,575</b>	-
<b>Total</b>	<b>14,646,220</b>	265,695

During the year, the Credit Union issued 9,246 (2020 - 4,052), redeemed 10,169 (2020 - 3,819), and assumed through business combination 37,513 (2020 - nil) common shares.

During the year, the Credit Union issued 170,283 (2020 - nil), redeemed 5,868,769 (2020 - nil) and assumed through business combination 19,896,061 surplus shares.

*Common shares*

When an individual becomes a member of the Credit Union, they are issued a common share at \$5 per share. Each member of the Credit Union has one vote, regardless of the number of shares held. These membership shares are redeemable at par only when a membership is withdrawn. Dividends are at the discretion of the Board of Directors. Since shares are redeemable only at the discretion of the Credit Union Board of Directors, they are classified as equity.

*Surplus shares*

The total amount of surplus shares purchased and redeemed by the Credit Union in a year shall not exceed 5% of the amount of surplus shares outstanding at the last year-end of the Credit Union if the Credit Union's equity is, or would by such purchase or redemption be, less than the level of capital as prescribed by the Act.

The withdrawal is also subject to terms of the Credit Union's VIP program which restrict redemption to certain situations: member is deceased, member ceases to reside in the Credit Union's trading area, wind-up or dissolution of a business or corporation, bankruptcies, legal claim, hardship, member reaching the age of 65. All payouts are at the discretion of the Board of Directors.

Surplus shares are established as a means of returning excess earnings to the members and at the same time increasing the Credit Union's equity base. The articles of incorporation for the Credit Union disclose the conditions concerning surplus shares. These shares are redeemable at the discretion of the Board of Directors and as such are recorded as equity.

**15. Patronage refund**

The Board of Directors has declared a patronage refund estimated at \$6,000,000 (2020 - \$3,000,000). The patronage refund is based on the business done during the year by each member.

*For the year ended December 31, 2021*

**18. Related party transactions**

**Key management compensation of the Credit Union**

Key Management Personnel ("KMP") of the Credit Union are those persons having authority and responsibility for planning, directing and controlling the activities of the entity, directly or indirectly, including any Director.

	<b>2021</b>	<b>2020</b>
Salaries and other short-term employee benefits	<b>3,666,559</b>	2,152,603
Honoraria and per diems	<b>365,851</b>	207,994
Meetings, training, and conference costs	<b>33,401</b>	12,726
Post-employment benefits	<b>699,970</b>	848,309

**Transactions with Key Management Personnel**

Loans made to KMP are approved under the same lending criteria applicable to members. KMP may receive concessional rates of interest on their loans and facilities. These benefits are subject to tax with the total value of the benefit included in the compensation figures above.

There are no loans that are impaired in relation to loan balances with KMP.

There are no benefits or concessional terms and conditions applicable to the family members of KMP. There are no loans that are impaired in relation to the loan balances with family or relatives of KMP.

	<b>2021</b>	<b>2020</b>
Aggregate value of loans and lines of credit advanced	<b>19,953,788</b>	5,030,491
Unused value of lines of credit	<b>1,451,563</b>	368,350

	<b>2021</b>	<b>2020</b>
Loans disbursed to KMP	<b>3,210,561</b>	2,335,301

	<b>2021</b>	<b>2020</b>
Interest and other revenue earned on loans to KMP	<b>488,319</b>	113,436
Interest paid on deposits to KMP	<b>54,203</b>	55,093

	<b>2021</b>	<b>2020</b>
The total value of members' savings and deposits from KMP as at the year-end	<b>4,027,827</b>	3,507,065

**Directors, committee members, management and staff**

Transactions with Directors, committee members, management and staff are at terms and conditions as set out in the loan policies of the Credit Union.

Loans to Directors (and their spouses) that received beneficial interest rates as at December 31, 2021 amounted to \$nil (2020 - \$nil) for a total benefit of approximately \$nil (2020 - \$nil).

Loans to Directors and staff as at year end amounted to 0.77% (2020 - 1.09%) of total assets of the Credit Union.

**18. Related party transactions** *(Continued from previous page)*

***Credit Union Central of Manitoba***

The Credit Union is a member of the Credit Union Central of Manitoba, which acts as a depository for surplus funds received from and loans made to credit unions. The Credit Union Central of Manitoba also provides other services for a fee to the Credit Union and acts in an advisory capacity.

Interest and dividends earned on investments during the year ended December 31, 2021 amounted to \$14,835,885 (2020 - \$8,754,986).

Interest and charges paid on borrowings during the year ended December 31, 2021 amounted to \$nil (2020 - \$44).

Payments made for affiliation dues, liquidity assessment, research and development assessment, cheque clearing and data processing for the year ended December 31, 2021 amounted to \$2,483,638 (2020 - \$1,479,176).

***Deposit Guarantee Corporation of Manitoba***

The Deposit Guarantee Corporation of Manitoba (the "Corporation") was created under the Credit Unions and Caisses Populaires Act for the purposes of guaranteeing deposits in Manitoba credit unions. All transactions with the Corporation are recorded at the exchange amount which is the amount agreed upon by the two parties.

The payments made to the Corporation during the year ended December 31, 2021 represent the net statutory annual assessment in the amount of \$4,379,022 (2020 - \$2,156,504).

***Celero Solutions***

The Credit Union has entered into an agreement with Celero Solutions to provide the delivery of banking system services and the maintenance of the infrastructure needed to ensure uninterrupted delivery of such services. The agreement expires July 19, 2029. Payments made to Celero Solutions during the year ended December 31, 2021 for these services totaled \$973,139 (2020 - \$1,878,945).

**19. Pension plan**

The Credit Union has a multi-employer defined contribution pension plan for qualifying employees. The Credit Union matches employee contributions at an average rate of 6% of the employee's salary up to the maximum allowed under pension legislation. The contributions are held in trust by the Cooperative Superannuation Society Limited and are not recorded in these consolidated financial statements.

The expense and payments for the year ended December 31, 2021 are \$1,904,201 (2020 - \$903,332) and are recorded as personnel expenses. As a defined contribution pension plan, the Credit Union has no further liability or obligation for future contributions to fund benefits to plan members.

**Access Credit Union Limited**  
**Notes to the Consolidated Financial Statements**  
*For the year ended December 31, 2021*

**20. Capital management**

The Credit Union provides financial services to its members and is subject to the capital requirements set out in the Credit Unions and Caisses Populaires Act of Manitoba (the "Act").

The Credit Union's objectives when managing capital are to ensure the long term viability of the Credit Union and the security of member deposits by holding a level of capital deemed sufficient to protect against unanticipated losses and to comply at all times with the capital requirements set out in the Act.

The Credit Union measures the adequacy of capital using two methods:

- Total capital as a percent of assets; and
- Total capital as a percent of risk-weighted assets. Under this method, the Credit Union reviews its loan portfolio and other assets and assigns a risk weighting using definitions and formulas set out in the Act. The more risk associated with an asset, a higher weighting is assigned. This method allows the Credit Union to measure capital relative to the possibility of loss with more capital required to support assets that are seen as being higher risk.

The Credit Union management ensures compliance with capital adequacy through the following:

- Establishing policies for capital management, monitoring and reporting;
- Establishing policies for related areas such as asset liability management;
- Reporting to the Board of Directors regarding financial results and capital adequacy;
- Reporting to the Deposit Guarantee Corporation of Manitoba on its capital adequacy; and
- Establishing budgets and reporting variances to those budgets.

During the year ended December 31, 2021, the Credit Union has complied with the capital requirements.

The Regulations to the Act require that the Credit Union establish and maintain a level of capital as follows (as calculated in accordance with the Act):

	<b>2021</b>	<b>2020</b>
Members' equity not less than 5.00% of assets	<b>6.72 %</b>	6.30 %
Retained surplus not less than 3.00% of assets	<b>6.49 %</b>	6.29 %
Members' equity not less than 8.00% of the risk weighted value of assets	<b>13.03 %</b>	11.62 %

The Credit Union manages its capital as calculated below:

	<b>2021</b>	<b>2020</b>
Members' shares	<b>14,646,220</b>	265,695
Retained surplus	<b>224,520,400</b>	201,015,501
Contributed surplus	<b>177,902,513</b>	-
<b>Capital</b>	<b>417,069,133</b>	201,281,196

**Access Credit Union Limited**  
**Notes to the Consolidated Financial Statements**  
*For the year ended December 31, 2021*

**21. Fair value measurements**

Assets and liabilities recorded at fair value in the consolidated statement of financial position are measured and classified in a hierarchy consisting of three levels for disclosure purposes; the three levels are based on the priority of the inputs to the respective valuation technique. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). An asset or liability's classification within the fair value hierarchy is based on the lowest level of significant input to its valuation. The input levels are defined as follows:

- Level 1: Unadjusted quoted prices in an active market for identical assets and liabilities.
- Level 2: Quoted prices in markets that are not active or inputs that are observable either directly (i.e., as prices) or indirectly (i.e. derived from prices). Level 2 inputs include quoted prices for assets in markets that are considered less active. Assets measured at fair value and classified as Level 2 include interest rate swaps. Members' loans, investments and members' savings and deposits are disclosed at fair value based on a level 2 classification.
- Level 3: Unobservable inputs that are supported by little or no market activity and are significant to the estimated fair value of the assets or liabilities. Level 3 assets and liabilities would include financial instruments whose values are determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of estimated fair value requires significant management judgment or estimation.

There were no transfers between fair value hierarchy levels for the year ended December 31, 2021.

**Assets and liabilities measured at fair value**

The Credit Union's assets and liabilities measured at fair value on a recurring basis have been categorized into the fair value hierarchy as follows:

<i>in 000's</i>	<b>2021</b> <i>Fair Value</i>	<i>Level 1</i>	<i>Level 2</i>	<i>Level 3</i>
<b>Financial assets</b>				
Credit Union Central of Manitoba	284,522	-	284,522	-
Concentra shares	6,063	-	6,063	-
<b>Total financial assets</b>	<b>290,585</b>	-	<b>290,585</b>	-
<hr/>				
<i>in 000's</i>	<b>2020</b> <i>Fair Value</i>	<i>Level 1</i>	<i>Level 2</i>	<i>Level 3</i>
<b>Financial assets</b>				
Credit Union Central of Manitoba	423,101	-	423,101	-
Concentra shares	6,063	-	6,063	-
<b>Total financial assets</b>	<b>429,164</b>	-	<b>429,164</b>	-

**Access Credit Union Limited**  
**Notes to the Consolidated Financial Statements**  
*For the year ended December 31, 2021*

21. **Fair value measurements** (Continued from previous page)

**Non-recurring fair value measurements**

The Credit Union's non-recurring fair value measurements have been categorized in the fair value hierarchy as follows:

<i>in 000's</i>	<b>2021</b> <i>Fair Value</i>	<i>Level 1</i>	<i>Level 2</i>	<i>Level 3</i>
<b>Financial assets</b>				
Funds on hand and on deposit	756,771	756,771	-	-
Members' loans	5,075,978	-	5,075,978	-
Municipal debentures	1,304	-	1,304	-
<b>Total financial assets</b>	<b>5,834,053</b>	<b>756,771</b>	<b>5,077,282</b>	<b>-</b>
<b>Financial liabilities</b>				
Members' savings and deposits	5,515,084	-	5,515,084	-
Other liabilities	25,640	-	25,640	-
Securitized borrowings	198,216	-	198,216	-
<b>Total financial liabilities</b>	<b>5,738,940</b>	<b>-</b>	<b>5,738,940</b>	<b>-</b>
<i>in 000's</i>	<b>2020</b> <i>Fair Value</i>	<i>Level 1</i>	<i>Level 2</i>	<i>Level 3</i>
<b>Financial assets</b>				
Funds on hand and on deposit	160,160	160,160	-	-
Members' loans	2,599,253	-	2,599,253	-
Municipal debentures	2,017	-	2,017	-
<b>Total financial assets</b>	<b>2,761,430</b>	<b>160,160</b>	<b>2,601,270</b>	<b>-</b>
<b>Financial liabilities</b>				
Members' savings and deposits	2,857,070	-	2,857,070	-
Other liabilities	12,697	-	12,697	-
Securitized borrowings	126,997	-	126,997	-
<b>Total financial liabilities</b>	<b>2,996,764</b>	<b>-</b>	<b>2,996,764</b>	<b>-</b>

The most significant assumption in the above fair value determinations relates to the discount rates utilized. If the discount rates would increase by 100 basis points then the fair value of assets would decrease by approximately \$107,410,306 and the fair value of liabilities would decrease by approximately \$51,266,171. A corresponding decrease of 100 basis points would result in the fair value of assets increasing by approximately \$102,361,281 and the fair value of liabilities would increase by approximately \$22,576,027.

## 22. Financial instruments

The Credit Union, as part of its operations, carries a number of financial instruments which result in exposure to the following risks: credit risk, market risk, liquidity risk.

Accordingly, the Credit Union has established avoidance of undue concentrations of risk, hedging of risk exposures, and requirements for collateral to mitigate credit risk as risk management objectives. In seeking to meet these objectives, the Credit Union follows risk management policies approved by its Board of Directors.

The Credit Union's risk management policies and procedures include the following:

- Ensure all activities are consistent with the mission, vision and values of the Credit Union;
- Balance risk and return;
- Manage credit, market and liquidity risk through preventative and detective controls;
- Ensure credit quality is maintained;
- Ensure credit, market, and liquidity risk is maintained at acceptable levels;
- Diversify risk in transactions, member relationships and loan portfolios;
- Price according to risk taken, and
- Using consistent credit risk exposure tools.

Various Board of Directors committees are involved in financial instrument risk management oversight, including the Risk Committee and Loan Committee.

There have been no significant changes from the previous year in the Credit Union's risks to which it is exposed or its general policies and procedures for managing risk.

### **Credit risk**

Credit risk is the risk of financial loss resulting from the failure of a borrower or counterparty to honour its financial or contractual obligations to the Credit Union. Credit risk primarily arises from members' loans.

### **Risk management process**

Credit risk management is integral to the Credit Union's activities. Management carefully monitors and manages the Credit Union's exposure to credit risk by reviewing member credit extension policies and guidelines and reviewing the performance of loan portfolios, including default events and past due state. The risk management process starts at the time of a member credit application and continues until the loan is fully repaid. The primary credit risk management policies and procedures include the following:

- Loan security (collateral) requirements;
- Security valuation processes, including method used to determine the value of real property and personal property when that property is subject to a mortgage or other charge;
- Maximum loan to value ratios where a mortgage or other charge on real or personal property is taken as security;
- Borrowing member capacity (repayment ability) requirements;
- Borrowing member character requirements;
- Limits on aggregate credit exposure per individual and related parties;
- Limits on concentration of credit risk by loan type, industry and economic sector;
- Limits on the types of credit facilities and services offered;
- Internal loan approval processes and loan documentation standards;
- Loan re-negotiation, extension and renewal processes;
- Processes that identify adverse situations and trends, including risks associated with economic, geographic and industry sectors;
- Control and monitoring processes including portfolio risk identification and delinquency tolerances;

**22. Financial instruments** *(Continued from previous page)*

- Timely loan analysis processes to identify, access and manage delinquent and impaired loans;
- Collection processes that include action plans for deteriorating loans;
- Overdraft control and administration processes; and
- Loan syndication processes.

The Credit Union's credit risk policies, processes and methodologies are reviewed periodically to ensure they remain relevant and effective in managing credit risk.

**Inputs, assumptions and techniques**

*Definition of default and assessments of credit risk*

Financial instruments are assessed at each reporting date for a significant increase in credit risk since initial recognition. This assessment considers changes in the risk of a default occurring at the reporting date as compared to the date of initial recognition.

The Credit Union considers members' loans to be in default when contractual payments are more than 90 days past due or other objective evidence of impairment exists, such as notification from the borrower or breach of major covenants. This definition is consistent with the definitions used for the Credit Union's internal credit risk management practices and has been selected because it most closely aligns the definition of default to the Credit Union's past credit experience, and the covenants placed in standard borrowing contracts.

Changes in credit risk are assessed on the basis of the risk that a default will occur over the contractual lifetime of the financial instrument rather than based on changes in the amount of expected credit losses or other factors. In making this assessment the Credit Union takes into account all reasonable and supportable information, including forward-looking information, available without undue cost or effort. The Credit Union considers past due information of its balances and information about the borrower available through regular commercial dealings, such as requests for loan modifications.

The credit risk of a financial instrument is deemed to have significantly increased since initial recognition when contractual payments have exceeded 30 days past due, or other information becomes available to management (e.g., through the course of regular credit reviews, communication with the borrower or forecasting processes which consider macroeconomic conditions expected to have a future impact on borrowers). When a financial instrument is considered to have low credit risk, it is assumed that there has not been a significant increase in credit risk since initial recognition.

The Credit Union identifies credit-impaired financial assets through regular reviews of past due balances and credit assessments of its customers. Credit-impaired financial assets are typically placed on the Credit Union's watch list based on its internal credit risk policies. In making this assessment, the Credit Union considers past due information of its balances and information about the borrower available through regular commercial dealings.

*Measurement of expected credit losses*

The Credit Union measures expected credit losses for members' loans on a group basis. These assets are grouped on the basis of their shared risk characteristics such as loan type (residential mortgages, commercial mortgages, other secured loans or non-secured loans). Otherwise, expected credit losses are measured on an individual basis.

**22. Financial instruments** *(Continued from previous page)*

When measuring 12 month and lifetime expected credit losses, the Credit Union considers items such as the contractual period of the financial asset or the period for which the entity is exposed to credit risk, determination of appropriate discount rates used in incorporating the time value of money, assumptions about prepayments, timing and extent of missed payments or default events, probabilities of default and other assumptions and inputs used in calculating the amount of cash shortfalls depending on the type or class of financial instrument. Forward looking information is incorporated into the determination of expected credit loss by considering regional economic journals and forecasts, collecting information available from regular commercial dealings with its customers and other publicly available information and considering the effect such information could have on any assumptions or inputs used in the measurement of expected credit losses, determining significant increases in credit risk or identifying a credit impaired financial asset.

Significant judgments, estimates and assumptions are required when calculating the expected credit losses of financial assets. In measuring the 12 month and lifetime expected credit losses, management makes assumptions about prepayments, the timing and extent of missed payments or default events. In addition, management makes assumptions and estimates about the impact that future events may have on the historical data used to measure expected credit losses.

*Write-offs*

Financial assets are written off when there is no reasonable expectation of recovery. The Credit Union assesses that there is no reasonable expectation of recovery when the security relating to the loan has been sold and there are remaining amounts outstanding, the borrower has filed for bankruptcy and the trustee has indicated that no additional funds will be paid.

**Access Credit Union Limited**  
**Notes to the Consolidated Financial Statements**  
*For the year ended December 31, 2021*

**22. Financial instruments** *(Continued from previous page)*

**Exposure to credit risk**

The following table sets out information about the credit quality of financial assets assessed for impairment under IFRS 9 Financial instruments. The amounts in the table, unless otherwise indicated, represent the assets' gross carrying amount. For loan commitments and financial guarantee contracts, the amounts in the table represent the amounts committed or guaranteed, respectively.

The gross carrying amount of financial assets and exposure amount of loan commitments and financial guarantee contracts represents the maximum exposure to credit risk for that class of financial asset.

	2021			<i>Total</i>
	<i>12-month ECL</i>	<i>Lifetime ECL (not credit impaired)</i>	<i>Lifetime ECL (credit impaired)</i>	
Commercial loans	2,403,196,167	1,777,181	683,750	2,405,657,098

*Financial assets designated as measured at fair value through profit or loss*

The Credit Union has designated certain investments as measured at fair value through profit or loss. As at December 31, 2021, the Credit Union's maximum exposure to credit risk arising from this financial asset is \$290,584,947 (2020 - \$429,163,421)

**Access Credit Union Limited**  
**Notes to the Consolidated Financial Statements**  
*For the year ended December 31, 2021*

**22. Financial instruments** *(Continued from previous page)*

*Concentrations of credit risk*

Concentration of credit risk exists if a number of borrowers are exposed to similar economic risks by being engaged in similar economic activities or being located in the same geographical region, and indicate the relative sensitivity of the Credit Union's performance to developments affecting a particular segment of borrowers or geographical region.

Geographical risk exists for the Credit Union due to its primary service area being Winnipeg and Southern Manitoba and surrounding areas.

**Amounts arising from expected credit losses**

*Reconciliation of the loss allowance*

The following tables show a reconciliation of the opening to the closing balance of the loss allowance by class of financial instrument.

	<i>12-month ECL</i>	<i>Lifetime ECL (not credit impaired)</i>	<i>Lifetime ECL (credit impaired)</i>	<i>Total</i>
<b>Members' loans</b>				
Balance at January 1, 2020	2,564,961	990,718	480,847	4,036,526
Net remeasurement of loss allowance	2,123,683	(124,593)	(281,866)	1,717,224
Balance at December 31, 2020	4,688,644	866,125	198,981	5,753,750
Net remeasurement of loss allowance	1,669,224	(117,820)	114,118	1,665,522
Balance at December 31, 2021	6,357,868	748,305	313,099	7,419,272

**Market risk**

Market risk arises from changes in interest rates that affect the Credit Union's net interest income. Exposure to this risk directly impacts the Credit Union's income from its loan and deposit portfolios. The Credit Union's objective is to earn an acceptable net return on these portfolios, without taking unreasonable risk, while meeting member owner needs.

**Risk measurement**

The Credit Union's risk position is measured and monitored each month to ensure compliance with policy. Management provides quarterly reports on these matters to the Credit Union's Board of Directors.

**Objectives, policies and processes**

Management is responsible for managing the Credit Union's interest rate risk, monitoring approved limits and compliance with policies. The Credit Union manages market risk by developing and implementing asset and liability management policies, which are approved and periodically reviewed by the Board.

The Credit Union's goal is to achieve adequate levels of profitability, liquidity and safety. The Board of Directors reviews the Credit Union's investment and asset liability management policies periodically to ensure they remain relevant and effective in managing and controlling risk. See Note 22 to additional information on the asset liability matching policy.

Other liabilities	-	-	-	-	25,641	25,641	12,067
	<b>3,112,996</b>	<b>1,037,137</b>	<b>872,729</b>	<b>19,924</b>	<b>730,461</b>	<b>5,773,247</b>	<b>2,993,227</b>

The following provides the potential before tax impact on an immediate and sustained 1% increase or decrease in interest rates on the Credit Union's net interest income for a one year period. All interest rate risk measures are based upon interest rate exposures at a specific time and continuously change as a result of business activities and our risk measurement initiatives.

Before tax impact of:

1% increase in rates \$2,393,176 decrease in financial margin

1% decrease in rates \$58,816 decrease in financial margin

Interest sensitive assets and liabilities cannot normally be perfectly matched by amount and term to maturity. The Credit Union may utilize interest rate swaps to assist in managing this rate gap.

**Foreign currency risk**

Currency risk relates to the Credit Union operating in different currencies and converting non-Canadian earnings at different points in time at different foreign exchange rates when adverse changes in foreign currency exchange rates occur.

The Credit Union's foreign exchange risk is related to deposits and loans denominated in United States dollars. Foreign currency holdings are monitored by management and holdings are adjusted when offside of the investment policy.

**Risk measurement**

The Credit Union's position is measured weekly. Measurement of risk is based on the mismatch of assets and liabilities denominated in United States dollars.

**22. Financial instruments** *(Continued from previous page)*

**Objectives, policies and procedures**

The Credit Union limits its mismatch of deposits and loans held on foreign currency to \$500,000.

For the years-ended 2021 and 2020, the Credit Union's exposure to foreign exchange risk complies with the policy.

There have been no significant changes from the previous year in the exposure to risk or policies, procedures and methods used to measure the risk.

**Liquidity risk**

Liquidity risk arises from the inability to generate or obtain the necessary cash or cash equivalents in a timely manner, at a reasonable price, to meet commitments as they come due. In particular, the risk arises from failure to meet the Credit Union's day-to-day obligations, including claims on the Credit Union and operational demands.

The Credit Union uses different risk management processes to manage liquidity risk. The acceptable amount of risk is defined by policies approved by the board and monitored by the Board of Directors.

The assessment of the Credit Union's liquidity position reflects management's estimates, assumptions and judgment pertaining to current and prospective specific and market conditions and the related behaviour of its members and counterparties.

The Credit Union manages its liquidity position by monitoring, forecasting and managing cash flows and the concentration of loans and deposits within approved policies. Management provides quarterly reports on these matters to the Board of Directors.

- Structural liquidity risk, which addresses the risk due to mismatches in effective maturities between assets and liabilities, more specifically the risk of over reliance on short-term liabilities to fund long-term illiquid assets;
- Tactical liquidity risk, which addresses the day-to-day funding requirements that are managed by imposing prudential limits on net fund outflows; and
- Contingent liquidity risk, which assess the impact of sudden stressful events and the Credit Union's responses thereto.

The primary liquidity risk policies and procedures include the following:

- Liquidity risk management framework to measure and control liquidity risk exposure;
- Measurement of cashflows;
- Maintain a line of credit and borrowing facility with Credit Union Central of Manitoba
- Maintenance of a pool of high quality liquid assets;
- Monitoring of single deposits and sources of deposits; and
- Monitoring of term deposits.

**Access Credit Union Limited**  
**Notes to the Consolidated Financial Statements**  
*For the year ended December 31, 2021*

**23. Asset liability matching**

The Credit Union's major source of income is financial margin which is the difference between interest earned on investments and loans to members and interest paid to members on their deposits. The objective of managing the financial margin is to match re-pricing or maturity dates of loans and investments and members' savings and deposits within policy limits that are intended to limit the Credit Union's exposure to changing interest rates and to wide fluctuations of income during periods of changing interest rates. The differential represents the net mismatch between members' loans and investments and members' savings and deposits for those particular maturity dates. Certain items on the consolidated statement of financial position, such as non interest bearing member deposits and equity do not provide interest rate exposure to the Credit Union. These items are reported as non interest rate sensitive on the schedule.

Amounts with variable interest rates, or due on demand, are classified as variable.

A significant amount of members' loans and members' savings and deposits can be settled before maturity on payment of a penalty. No adjustment has been made for repayments that may occur prior to maturity.

<i>000's</i>	Assets	Liabilities	2021 Differential	2020 Differential
<b>Interest sensitive</b>

	6,196,129	(6,196,129)	-	-

The Credit Union may enter into interest rate swaps under policies and procedures which ensure that they are utilized for reducing the Credit Union's exposure to fluctuating interest rates. All interest rate swaps are purchased on behalf of the Credit Union by Credit Union Central of Manitoba. As at December 31, 2021 interest rate swaps with a notional value of \$192,500,000 (2020 - \$50,000,000) were outstanding.

**24. Commitments and guarantees**

**Loans**

The Credit Union has authorized \$813,050,980 (2020 - \$569,279,944) in line of credit loans, of which \$532,929,302 (2020 - \$351,205,949) has not been advanced as of year end. In addition, \$139,547,098 (2020 - \$31,985,772) in members' loans have been authorized but have not been advanced as of the year end.

**Director and officer indemnification**

The Credit Union indemnifies its directors and officers against any and all claims or losses reasonably incurred in the performance of their service to the Credit Union to the extent permitted by law. The Credit Union has acquired and maintains liability insurance for its directors and officers.

**25. Government assistance**

During the year, the Credit Union claimed \$2,119,295 (2020 - \$600,903) of Canada Emergency Wage Subsidy from the Government of Canada as part of Canada's COVID-19 Economic Response Plan to support Canadians and protect jobs during the global COVID-19 pandemic. At December 31, 2021 there is \$2,119,295 (2020 - \$600,903) included in offsetting personnel expenses related to the wage subsidy.

**26. Canada Emergency Business Account Loans**

The Credit Union participated in the Canada Emergency Business Account (CEBA) program by facilitating loans with eligible small businesses during the year. These loans qualify for derecognition as the risks and rewards were transferred to the Government of Canada, therefore these loans are not recognized in the consolidated statement of financial position. As at December 31, 2021, loans issued under the CEBA program were approximately \$73 million (2020 - \$43 million).

**27. Significant event**

The novel Coronavirus or COVID-19 was declared a pandemic by the World Health Organization on March 12, 2020. At this time, it is unknown the extent of the impact the COVID-19 outbreak may have on the Credit Union as this will depend on future developments that are highly uncertain and that cannot be predicted with confidence. These uncertainties arise from the inability to predict the ultimate geographic spread of the disease, and the duration of the outbreak, including the duration of travel restrictions, business closures or disruptions, and quarantine/isolation measures that are currently, or may be put, in place by Canada and other countries to fight the virus.

**28. Subsequent event**

On January 27, 2022 the members of the Credit Union voted in favour of the Credit Union merging with Noventis Credit Union Ltd. and Sunova Credit Union Limited. Effective July 1, 2022 the amalgamated Credit Union will operate as Access Credit Union Limited.

**29. Comparative figures**

Certain comparative figures have been reclassified to conform with current year presentation.
